Key Findings

1. Overall sales and profitability

PeakSport generated $612,515.45 in adjusted sales and $261,009.32 in gross profit after returns**, with an adjusted gross margin of 42.61% across 5,200 distinct orders. Average order value was $117.79. Salese are relatively consistent through out the period as it ranged between a low of $26,251.90 and a high of $33,752.90

2. Store performance varies in both sales and profitability

Dallas NorthPark generated the highest adjusted sales at $57,594.75, but had the lowest gross margin at 41.82%, below the company-wide average 42.61%. Austin Domain had the lowest adjusted sales at $27,595.55 but tied for the highest gross margin at 43.39%.

3. Customer segments present different opportunities

Loyal customers generated the highest revenue per purchasing customer at $379.47 and averaged 2.95 orders per customer. By comparison, Value customers had the lowest average order, lowest amount of orders per customer, and lowest revenue per customer. Core customers represent the most at 40% of our total sales, while VIP has the lowest share of our sales at 6%. However, VIPs have the highest average order at $133.85.

Recommendations

1. Investigate Dallas NorthPark's margin performance.

Review product mix, promotional discounts, and cost drivers to identify opportunities to improve profitability without unnecessarily sacrificing sales.

2. Investigate Austin Domain's sales and returns.

Review the products most frequently returned, customer feedback, and inventory availability. Develop a targeted improvement plan and monitor sales and return rates monthly.

3. Strengthen customer retention.

Investigate how can we convert more Core and Value shoppers into Loyal and VIPs, as the latter average more per order and generate more revenue per
